Introduction to Natural Language Processing

Instructor: Dr Hrishikesh Terdalkar

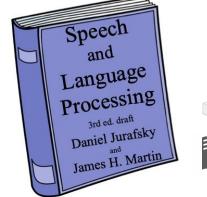

Goals

- Core NLP Concepts
- Cutting-Edge Techniques
- Hands-On Experience
- Project-Based Learning

Overview

- Linguistic Concepts
- Text Preprocessing
- Rule-based NLP
- Classical Models
- Word Embeddings
- Language Models
- Sequence Modeling
 - o RNNs, GRUs, LSTM
- Transformers and Attention
- Transfer Learning (BERT)
- Generative AI (LLMs)

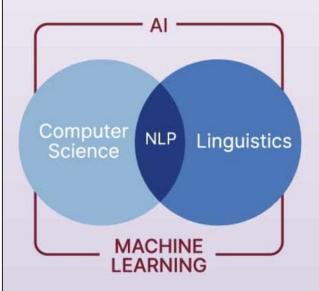

Evaluation

- Assignments (Individual)
- Project (Group)
